

#colorectalresearch

STUDY	AIM	ELIGIBILITY	STATUS	CONTACT
AFFINITY	Assess acceptability of faecal microbiota transplant for anterior resection syndrome	Patients >18 yrs with anterior resection & defunctioning ileostomy in past 2 years	- Expressions of Interest Welcome - In study set up	Email: Julie.Cornish@wales.nhs.uk
AIM-AC	Develop novel imaging-based biomarkers in anal cancer to facilitate personalised therapy	Patients who received chemoradiotherapy for anal squamous cell carcinoma	- Analysis and write up stage	Email: andrew.renehan@manchester.ac.uk
ALLEGRO	IV lidocaine vs placebo – effect on GI recovery after colorectal surgery	Elective lap or open colectomy for cancer or diverticular disease	- Expressions of Interest Welcome	Email: Hugh.Paterson@ed.ac.uk
Beyond TME	Selecting/ Managing patients for Beyond TME surgery using a novel MRI staging system	Recurrent or extensive primary rectal/sigmoid cancer requiring surgery beyond TME	- Recruiting - Open to new sites	Email: lisa.scerri@rmh.nhs.uk @Prof_Gina_Brown
CapaCITY	1. Biofeedback vs habit training 2. High vs low volume 3. Lap ventral mesh rectopexy	Chronic constipation without evident cause and naïve to treatment under investigation	- Expressions of Interest Welcome - Recruiting	(CapaCITY 1): n.stevens@qmul.ac.uk (CapaCITY 2/3): s.taheri@qmul.ac.uk
CIPHER STUDY	Incidence & effects of surgical technique on parastomal hernia formation	Undergoing surgery to create a stoma (ileostomy or colostomy)	- Expressions of Interest Welcome - Recruiting	Email: cipher-study@bristol.ac.uk @TheCIPHERStudy
CLIFF Study	Colorectal liver metastases – hepatic fat and function after chemotherapy	Patients undergoing pre-operative chemotherapy for colorectal liver metastases	- Recruitment beginning July 2018	Email: andrew.renehan@manchester.ac.uk
CLOSE-IT	Assess time to ileostomy closure following rectal ca surgery & reasons for delay	Patients undergone anterior resection with defunctioning ileostomy for rectal ca	- Pilot in progress - Recruiting summer 2018	Email: dukescollaborative@gmail.com
COMET	MRI diagnostic accuracy in extra-nodal deposits & adverse prognostic effect	Primary adenocarcinoma of the rectum amenable to surgical resection	- Recruiting	Email: lisa.scerri@rmh.nhs.uk @Prof_Gina_Brown
CORMAC	Developing a core outcome set for anal cancer clinical trials	Patients: Chemorad for anal SCC. Health Professionals: Involved in treating anal ca	- Closed to recruitment	Email: andrew.renehan@manchester.ac.uk
CreST2	Covered vs uncovered stents in malignant large bowel obstruction: patency & QOL	Obstructing CRC, palliative. Exclusions: perforation, low rectal ca, antiangiogenics	- Expressions of Interest Welcome - Recruiting	Email: crest2@trials.bham.ac.uk @BiSTC1
ctDNA TRIAL	mrEMVI +ve rectal ca: ↑ level circulating cell-free & tumour specific DNA than mrEMVI -ve?	Biopsy-proven primary rectal cancer, no CT metastases, eligible for curative surgery	- Recruiting - Open to new sites	Email: lisa.scerri@rmh.nhs.uk @Prof_Gina_Brown
EFEX	Home-based prehabilitation programme in high risk patients with CRC	Elective patients deemed high risk due to comorbidity - straight to elective surgery	Expressions of interest welcome	Email: katrinaknight@nhs.net
ELF	Frailty Score in Emergency Laparotomy	Emergency Laparotomy (as per NELA) Age 65 +	- Data Analysis - Results spring 2018	Email: ELFCommittee@hotmail.com @ELFStudy
EMT2	Investigate benefits of Omega-3 EPA after surgery for colorectal liver metastases	Patients undergoing surgery for colorectal cancer liver metastases	- Expressions of Interest Welcome - In study set up	Email: S.P.Ruddock@leeds.ac.uk
FLOELA	Effectiveness of peri-op cardiac output guided haemodynamic therapy in emergency surgery	Emergency Laparotomy (as per NELA) Age 55+	- Expressions of Interest Welcome - Recruiting	Email: admin@floela.org
FOFACT	Assess quality of life during treatment of anal cancer		- Recruiting - Closed to new sites	Email: Nicola.fearnhead@addenbrookes.nhs.uk
FOX TROT	Neoadjuvant therapy for locally advanced colon cancer	High-risk operable colon cancer	- Follow-up data collection	Email: FOX TROT-trial@contacts.bham.ac.uk
HART	Abdominal wall closure technique to reduce the incidence of incisional hernias	Abdominal Surgery with midline incision ≥5cm for colorectal cancer patients	- Recruiting - Closed to new sites	Email: HART@wales.nhs.uk @HART_trial
HIP STUDY	Hartmann's versus IAPE – compare intra-operative tumour perforation rate	Elective low anterior resection for rectal ca, no anastomosis, don't require formal APE	- Expressions of Interest Welcome - Recruiting	Email: dale.vimalachandran@nhs.net @dalevim
ICaRAS	Feasibility study of IV iron in palliative care cancer	Solid tumours with cancer related anaemia undergoing palliative care	- Expressions of Interest Welcome - Feasibility 2018	Email: austin.acheson@nottingham.ac.uk
IDEAL PM	Document & standardise centre variability of sites performing Cytoreduction & HIPEC	Full Cytoreductive surgery with HIPEC for Colorectal Peritoneal Metastasis	- Expanding to international sites	Email: Lee.Malcomson@Manchester.ac.uk
imagine	Profile GI recovery following elective colorectal surgery around Europe	Patients undergoing elective colorectal resection, or closure of stoma	-(Med student led) - Data Collection ongoing	Email: collaborate@starsurg.org @EuroSurg
IMPRESS	Improving radical treatment through MRI evaluation of pelvic sigmoid cancers	Patients with pelvic sigmoid adenocarcinoma eligible for curative treatment	- Recruiting - Open to new sites	Email: lisa.scerri@rmh.nhs.uk @Prof_Gina_Brown
IntAct	Intraoperative fluorescence angiography to prevent anastomotic leak in rectal ca	Rectal cancer suitable for laparoscopic/robotic anterior resection with anastomosis	- Recruiting - Open to new sites	Email: INTACT@leeds.ac.uk
LaCeS	Feasibility of laparoscopic versus open colorectal resection in emergency setting	Acute colorectal pathology requiring resectional surgery	- Feasibility study completed - Results ACPGBI	Email: ctru-laces@leeds.ac.uk
LAVA	Liver resection versus thermal ablation in colorectal cancer liver metastases		- Expressions of Interest Welcome - Recruiting	Email: lava@leeds.ac.uk
Laparoscopy in Emergency General Surgery	Laparoscopy in emergency general surgery	Adults undergoing emergency laparoscopy/laparotomy as per NELA criteria	- Results analysis	Email: LEGS.Study@gmail.com @LEGS_Study
MINSTREL	Test utility of MRI in identifying levels of invasion in benign and malignant rectal polyps	Rectal polyps 20mm to 50mm in size up to 150mm from anal verge	- Closed to recruitment - In follow-up	Email: lisa.scerri@rmh.nhs.uk @Prof_Gina_Brown
PLATO	Optimisation of radiotherapy dose in anal cancer	Invasive primary squamous cell carcinoma of the anus	- Expressions of Interest Welcome - Recruiting	Email: plato@leeds.ac.uk @PLATOTrial
PPAC2	Packing versus No Packing in Perianal Abscess	Emergency I&D Perianal Abscess Age 18+	- Expressions of Interest Welcome - Recruiting soon	Email: ppac2@liverpool.ac.uk @PPAC2Trial
PREPARE ABC	Hospital-based or home-based supervised exercise programme in colorectal cancer	Colorectal Cancer undergoing curative resection ASA I-III	- Expressions of Interest Welcome - Recruiting	Email: Prepare.ABC@uea.ac.uk
ROSSINI-2	To assess the effect of multiple novel surgical site infection reduction interventions	Abdominal surgery (emergency + elective) Age 18+	- EOJ Welcome - Recruiting Summer 2018	Email: BiSTC@contacts.bham.ac.uk @BiSTC1
SaFaRI	Magnetic sphincter augmentation versus SNS in faecal incontinence		Follow-up data collection – final 12 months	Email: safari@leeds.ac.uk
'SAILOR'	Straight to surgery vs CRT in low rectal cancer	Resectable low rectal cancer (<6cm) T2N0 to T4N1	- Expressions of Interest Welcome - Recruiting	Email: k.thorne@swansea.ac.uk @SAILORtrial
the SCOTTY study	Whole genome sequencing study of young colorectal cancer patients & parents	Young patients with colorectal cancer and their unaffected parents	- Expressions of Interest Welcome - Recruiting	Donna.Markie@ed.ac.uk Malcolm.Dunlop@jgmm.ed.ac.uk @scottystudy
SERENADE	Screening for synchronous metastases in colorectal cancer with DW-MRI	High risk CRC, CT negative for (or does not confirm presence of) metastatic disease	- Recruiting - Open to new sites	Email: lisa.scerri@rmh.nhs.uk @Prof_Gina_Brown
STAR-TREC	Radical surgery versus organ sparing treatment in rectal cancer	Small clinically localised rectal cancer	- Expressions of Interest Welcome - Recruiting	Email: star-trec@trials.bham.ac.uk
SUBSONIC	RCT of sacral neuromodulation for adults with incontinence	FI meeting NICE guidance for SNS	- Expressions of Interest Welcome - Recruiting	Email: e.mcalees@qmul.ac.uk
SUNRISE	To assess the effect of Negative Pressure Wound Therapy on surgical site infection	Emergency laparotomy Age 18+	- EOJ Welcome - Recruiting Spring 2018	Email: BiSTC@contacts.bham.ac.uk @SunriseRCT
TRIGGER	MRI tumour regression grade (mrTRG) as imaging biomarker of tumour response in rectal ca	Biopsy-confirmed rectal adenocarcinoma Locally advanced on MRI	- EOJ Welcome - Feasibility phase ending	Email: michelle.frost@rmh.nhs.uk @prof_gina_brown
WISE	Is there a level at which the 'waisting' occurs in the recto-sigmoid mesentery?	Rectosigmoid cancer for left colorectal resection including anterior peritoneal reflection	Recruiting at Royal Marsden Hospital only	Email: lisa.scerri@rmh.nhs.uk @prof_gina_brown
2D 3D Lap TME	Assess the impact of 3D laparoscopy on complex task performance	Rectal cancer undergoing Lap TME with curative intent	- Recruiting - Closed to new sites	Email: nathancurtis@doctors.org.uk
