

The Newcastle upon Tyne Hospitals

NHS Foundation Trust

Colorectal Robotic Surgery Cadaveric Course

20 - 21 May 2024

Aims and Objectives

Become familiar with the function and operation of the da Vinci Surgical System and appreciate the ergonomics of the da Vinci Surgical system robot and the available robotic instrumentation.

Understand the selection process for patient position, da Vinci surgical team and position and robotic approaches. Learn the robotic tissue dissection techniques using monopolar energy.

Course Director

Mr Peter Coyne
Consultant Surgeon
Newcastle upon Tyne
Hospitals NHS Trust

About the NSTC

Combining didactic teaching and practical procedures with leading edge technology, we offer first rate cadaveric training and continuing professional development in a purpose built facility. We also carry out pioneering research into new techniques and ensuring that you receive the very best surgical training available in the UK, both for today and in the future.

SPECIAL FEATURES

The course is designed to facilitate the surgeon with didactic and hands on cadaveric training experience.

Conducted by a faculty of experienced surgeons, this is an intensive two day course of lectures, debate, exchange and practical hands on experience on colorectal procedures using an XI Da Vinci Robot
