

Specialty Skills in Coloproctology

This unique course combines eLearning with a practical workshop day utilising both animal tissue and cadaveric dissection. The eLearning component of the course maximises learning opportunities, giving you more time to practice procedures and techniques.

Online content includes

- Anatomy of the anal canal, pelvic floor and rectum
- Anatomy of the abdominal colon
- Assessment of haemorrhoidal disease and operative haemorrhoidectomy
- Evaluation and treatment of pilonidal disease
- Stoma complications
- Management of anastomotic complications

Format

- Compulsory eLearning pre-course
- Cadaveric demonstrations
- Hands-on practical skills training for stoma/colostomy
- Informal discussions on surgical procedures

Date: 21 October 2015

Fee: £650

Held at: RCS London

Level: ST3-5 and SAS Grades
