# LUMINAL GI IMAGING:

## WHERE THERE IS A WAY IN, THERE IS A WAY OUT

Venue: British Dental Association, London

CPD: 6 CREDITS (APPLIED FOR)

This feature-packed one day programme focuses on developments and challenges in luminal imaging. The event will cover basic and advanced imaging concepts in the diagnosis and management of common pathologies with talks from leading GI radiologists and clinicians.

This study day will be a useful refresher course for practicing radiologists with a GI interest who may encounter these pathologies and examinations as part of their practice. The event will also be valuable to general radiologists and senior trainees developing an interest in GI radiology.

Educational aim:

- To develop an understanding of common luminal pathologies, the imaging modalities available in their diagnosis and management and how to interpret them.
