

Core Skills in Laparoscopic Surgery

Wednesday 23rd & Thursday 24th October 2019

NEW ADDITION 2 DAY COURSE £900

This 2 day course is designed to provide surgical trainees (ST1-4) with the technical skills required to perform the most common laparoscopic general surgical operations:

- Cholecystectomy
- Appendectomy
- Repair of perforated duodenal ulcer

Features Include:

- Emphasis on practical exercises using bench-top models
- Individual tuition
- Personal feedback on performance, with advise for further practice

**MAX. 12
PARTICIPANTS
PER COURSE**

In addition

Attending Core Lap will contribute 10 credits towards the 60 required for a PG Cert & activities help prepare students for the LapPass qualification, which they can go on to study for afterwards
