

The 2019 Dukes' Club Advanced Colorectal Cancer Education Day

This inaugural one-day educational event is aimed at developing skills in the discussion and management of locally advanced and metastatic colorectal cancer. The sessions will be of relevance to all colorectal trainees as it will be exam focused for those preparing for the FRCS and for those with a specialist interest in advanced cancer.

A fantastic faculty will lead
interactive sessions on:

- Rectal MRI
- Pelvic Anatomy
- Locally Advanced Colon Cancer
- Locally Advanced Rectal Cancer
- Metastatic Colorectal Cancer
- Research and Trials
- Cytoreductive surgery and HIPEC

For: ST3+ Colorectal trainees
