

SAVE THE DATE

7TH UK & IRELAND PERITONEAL MALIGNANCIES MEETING

Date:

27-28 March 2025

Venue:

Central Cardiff - TBC

Organisers:

Lieutenant Colonel Leigh Davies and Miss Jody Parker, University Hospital of Wales, Cardiff

Target Audience: All healthcare practitioners at any level (consultants, registrars, nurses) in the fields of colorectal surgical and medical oncology, gynaecology oncology (surgical and medical), radiology and pathology.

The conference will cover a diverse range of topics on treatment of peritoneal metastases with a particular focus on peritoneal metastases from colorectal and ovarian cancers. It will feature keynote lectures from renowned faculty on current practice in the U.K. and upcoming developments in the light of recent trials and of the latest research. Discussion and debates will also feature particularly around training in peritonectomies and HIPEC, as this is likely to become an important issue in the future.
